

Instrument

Utils

Editor

Track

The interface is divided into four main sections:

- Instrument:** Contains two vertical sliders (one green, one blue) and a circular oscillator knob labeled "osc" with a scale from 0 to 100. A gear icon for settings and a blue question mark icon are also present.
- Utils:** Contains a grid of icons for editing (scissors, pencil, eraser), zooming (magnifying glass), and other functions (folder, lock, heart). Below this is a playback section with play, pause, and repeat buttons.
- Editor:** The central area for editing tracks. It features a piano roll with a vertical axis labeled C3 to C4. Above the piano roll, three track configurations are listed: "3 layers: [3], 4, 7", "1 layer: [2]", and "2 layers: [4], 3". The piano roll itself is divided into three columns corresponding to these configurations, with horizontal lines representing notes. A label "Blocs" points to the vertical lines separating the columns.
- Player:** The bottom section, indicated by a dashed line from the "Player" label. It contains the playback controls (play, pause, repeat) from the Utils section.
